

Univar Cleaner B365

Hydrocarbon degreaser

Characteristics

- Excellent degreasing properties
- Degreaser for machines and vehicles
- Suitable for all kind of metals (ferrous and non-ferrous)
- Very mild odour

Description

Univar Cleaner B365 is a hydrocarbon degreaser based on n-paraffin with addition of an emulsifier – product for degreasing with very mild odour.

Applications

Univar Cleaner B365 is used for cold degreasing of machined pieces, machines and vehicle components.

The product is used concentrated and preferably on dry surfaces and can be used also in temperatures below 0 °C.

Typiska data

Density at 20 °C, kg/m ³	740-760
Viscosity at 20 °C, mm ² /s	1,8
VOC	100%
Flashpoint, °C	>61
Boiling temperature, °C	180-230
Ignition temperature, °C	approx. 200

Safety

More information you will find in the material and safety data sheet.
